

# DJ STOXX® Indices

With the information product *DJ STOXX® Indices* Deutsche Börse offers a total view about the worldwide market trends and real time data of important European benchmarks. The *DJ STOXX® Indices* are comprised of leading stocks from the international stock markets. They can thus be used to evaluate the performance of globally listed securities. They are known and respected far beyond European borders and form the basis for exchange-based and OTC products. The indices are calculated by STOXX Ltd. and disseminated by Deutsche Börse.

*DJ STOXX® Indices* serve as an underlying for a large number of index-based products: successful and liquid exchange-traded derivatives, structured products, warrants and ETFs.

The current 453 indices are subdivided according to criteria such as Region, Sectors, Size (large/mid/small) and Type of security contained.

The indices are subdivided into the following index families:

## **DJ STOXX® Blue Chip Indices**

- DJ STOXX® 50
