

ISTOXX® AI GLOBAL ARTIFICIAL INTELLIGENCE LARGE 100 NR DECREMENT

Index description

The iSTOXX AI Global Artificial Intelligence Large 100 NR Decrement 5% Index replicates the performance of the net return version of the iSTOXX AI Global Artificial Intelligence Large 100 Index assuming a constant 5% performance deduction per annum. The performance deduction accrues on a daily basis.

The iSTOXX AI Global Artificial Intelligence Large 100 Index allows a targeted investment in 100 companies from a wide range of industries that invest heavily in the development of new AI technologies. These companies are therefore considered to be well-positioned to benefit from the increased adoption of AI technologies.

Key facts

»Due to the performance deduction, the decrement index underperforms the net return version of the iSTOXX AI Global Artificial Intelligence Large 100 Index, which includes net dividend investments.

»The decrement index may perform better than the price version of the iSTOXX AI Global Artificial Intelligence Large 100 Index, which does not consider dividend investments, if the overall net dividend yield of the base index is greater than the value being subtracted.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.
