

# ISTOXX<sup>®</sup> EUROPE 50 SD-KPI INDEX

## Index description

The iSTOXX<sup>®</sup> Europe 50 SD-KPI Index is based on the STOXX<sup>®</sup> Europe 50 Index. It aims to closely track the STOXX<sup>®</sup> Europe 50 Index. This is achieved by the components either being slightly overweight or underweight compared to the underlying index. The weighting mechanism is based on Sustainable Development Key Performance Indicators (SD-KPIs).

## Key facts

»The integration of SD-KPIs in the STOXX<sup>®</sup> Europe 50 Index leads to the iSTOXX<sup>®</sup> Europe 50 SD-KPI Index, which in turn facilitates investors closely track the leading STOXX<sup>®</sup> Europe 50 Index. The low tracking error allows for hedging through STOXX<sup>®</sup> Europe 50 Index futures and options.

»The three SD-KPIs - environmental, social and governance (ESG) indicators - are important and material for business performance in different sectors. SD-KPI Standards have been developed by SD-M<sup>®</sup> GmbH in cooperation with the German Federal Environment Ministry and global investors and analysts, who influence EUR2 trillion in assets.

»SD-KPI Standards have been developed by SD-M<sup>®</sup> GmbH supported by the German Federal Environment Ministry, global investors and analysts who influence EUR 2 trillion in assets, as well as the Sustainability Accounting Standards Board (SASB).

STOXX Europe 50 Index	16.0	13.4	15.5	13.4	1.7	4.3	1.3	2.1

### Performance and annual returns<sup>3</sup>

### Methodology

The iSTOXX® Europe 50 SD-KPI Index covers all components of the STOXX® Europe 50 Index. SD-KPI Standards identify three SD-KPIs as being material for business performance in a specific sector. Taking these three SD-KPIs per sector, all companies in the universe are evaluated and a SD-KPI Total Score is calculated for each company. The SD-KPI Total Scores are provided by SD-M® GmbH

The SD-KPI Total Score provides the basis for the new component weight: All SD-KPI Total Scores are put into five intervals. Every interval provides a value for over or underweighting, i.e. -10%, -5%, 0%, 5%, 10%. Based on the respective interval in which the component belongs, a weighting cap factor is calculated. The detailed methodology, including calculation formula and full requirements, can be found in our rulebook: [www.stoxx.com/indices/rulebooks.html](http://www.stoxx.com/indices/rulebooks.html)

#### STOXX is part of Deutsche Boerse Group

#### CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers a wide range of customization, in terms of component selection, weighting schemes and personalized calculation methodologies.

#### DISCLAIMER

STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, Deutsche Börse Group and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, Deutsche Börse Group or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, Deutsche Börse Group or their licensors, research partners or data providers.

#### BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.
