

EURO STOXX® BANKS INDEX

Index description

The STOXX Supersector indices track supersectors of the relevant benchmark index. There are 19 supersectors according to the Industry Classification Benchmark (ICB). Companies are categorized according to their primary source of revenue. The following supersectors are available: automobile and parts, banks, basic resources, chemicals, construction and materials, financial services, food and beverage, health care, industrial goods and services, insurance, media, oil and gas, personal and household goods, real estate, communications, retail, technology, travel and leisure and utilities.

Key facts

» Categorization according to their primary source of revenue guarantees an accurate classification of companies in their respective business environments

» Component capping ensures that no component can dominate the index
