Methodology

The EURO STOXX 50 BuyWrite Index requires a monthly rollover procedure whereby the old EURO STOXX 50 call option ceases trading at noon (00:00 pm CET) on the pre-determined expiry date, i.e. the third Friday of a month and is replaced by a new EURO STOXX 50 call option whose last trading day falls on the next expiry date. The new one-month EURO STOXX 50 call option must have a remaining life of one month and must be 5% out of the money (i.e. the highest strike price below or equal to the EURO STOXX 50 settlement price plus 5%).

The EURO STOXX 50 BuyWrite (100%) Index is subject to the same monthly rollover procedure, but the new one-month EURO STOXX 50 call option must be at the money (i.e. the highest strike price below or equal to the EURO STOXX 50 settlement price). The detailed methodology, including calculation formula and full requirements, can be found in our rulebook: www.stoxx.com/indices/rulebooks.html
