

# ISTOXX® L&G DEV WORLD MV INDEX

## Index description

The iSTOXX L&G Developed World ESG index is designed to track an ESG-weighted market cap benchmark based on STOXX Developed World, where the ESG scores are provided by Legal and General Investment Management (LGIM). The index rules aim to ensure tradability, diversification, and untargeted factor and industry/country exposures are risk managed.

## Key facts

- » Innovative minimum volatility solution that incorporates LGIM's proprietary ESG scores
- » Explicitly designed to minimize portfolio volatility whilst incorporating ESG considerations
- » Embedded diversification elements across industry and country exposures

### BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

### CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

<sup>3</sup> Net dividend yield is calculated as net return index return minus price index return
