Performance and annual returns⁴

Methodology

The EURO ISTOXX 50 Sharing Economy Tilted Index selects 60 securities, all the EURO STOXX 50 Index constituents and 10 of the largest securities from the STOXX Global Sharing Economy. The index is price weighted with weight factors based on free-float market capitalization, revenue exposure and multipliers. These factors are set to achieve 80:20 ratio for the EURO STOXX 50 company weights versus 10 company weights within the thematic index.

The reviews are conducted on a quarterly basis in March, June, September, and December. The review cut-off date for the underlying data is the last calculation day of February, May, August, and November respectively.

The detailed methodology including the calculation formula can be found in our rulebooks: www.stoxx.com/rulebooks

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
