## Methodology

STOXX Europe Low Variance Weighted 120 Index: selection of the 120 least volatile stocks from the STOXX Europe 600 Index on a monthly basis with the cut-off date on the first Friday of the month. To be eligible for selection, the components must have a six-month average daily trading volume (ADTV) of more than 3 million euros. The remaining stocks are then ranked in ascending order by their volatility, i.e. the 120 least volatile stocks are selected.

iSTOXX Europe Low Variance Adjusted Beta Index: the beta of the above described iSTOXX Europe Low Variance Weighted 120 Index (LVI) which is the sensitivity of Low Variance index log returns relative to the STOXX Europe 600 Net Return EUR log returns is calculated on the trading day following each review cut-off date and is implemented on the third Friday of the month. The detailed methodology, including calculation formula and full requirements, can be found in our rulebook:

[www.stoxx.com/indices/rulebooks.html](http://www.stoxx.com/indices/rulebooks.html)

## DISCLAIMER

STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, Deutsche Börse Group and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, Deutsche Börse Group or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, Deutsche Börse Group or their licensors, research partners or data providers.

## BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

## CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers a wide range of customization, in terms of component selection, weighting schemes and personalized calculation methodologies.
