

STOXX® GLOBAL 1800 FOOD & BEVERAGE INDEX

Index description

The STOXX Supersector indices track supersectors of the relevant benchmark index. There are 19 supersectors according to the Industry Classification Benchmark (ICB). Companies are categorized according to their primary source of revenue. The following supersectors are available: automobile and parts, banks, basic resources, chemicals, construction and materials, financial services, food and beverage, health care, industrial goods and services, insurance, media, oil and gas, personal and household goods, real estate, communications, retail, technology, travel and leisure and utilities.

Key facts

- » Categorization according to their primary source of revenue guarantees an accurate classification of companies in their respective business environments
- » Component capping ensures that no component can dominate the index

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers a wide range of customization, in terms of component selection, weighting schemes and personalized calculation methodologies.
