

ISTOXX® GLOBAL DEMOGRAPHIC TRENDS SELECT 50 INDEX

Index description

The iSTOXX Global Demographic Trends Select 50 Index aims to select 50 low volatility and high dividend paying stocks among diversified industries from the STOXX Global 1800 Index, and weigh them by the inverse of their volatility. The companies are chosen from sectors that are well positioned to benefit from the evolution of demographic trends globally.

Key facts

- » Selection from a liquid global universe, the STOXX Global 1800 Index
- » Focuses on seven industries that will be impacted by demographic trends

Methodology

The iSTOXX Global Demographics Trends Select 50 Index is derived from the STOXX Global 1800 and selects stocks from sectors that stand to benefit from the evolution of demographic trends globally, and which pay high dividends while displaying low volatility.

In a first step, all companies are ranked into seven groups according to their ICB subsector code: Finance, Infrastructure, Leisure & Luxury, Pharmaceuticals, Resources, Real Estate and Telecom & Media & Tech. All stocks whose ICB subsector is not relevant are excluded. In each group, the less volatile are selected. In a second step, all remaining companies are ranked in descending order by their dividend yield. The top 50 constituents are selected while applying a minimum floor of 15 stocks from the Pharmaceuticals group. The 2 selection steps are applied in such a way that equal percentage of stocks is excluded in each. All selected stocks are weighted according to the inverse of their volatility with a 10% cap.

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
