

# STOXX® CHINA A 900 LARGE ESG INDEX

## Index description

The STOXX China A 900 Large ESG Index tracks the performance of the largest 300 securities by free float market capitalization in the STOXX China A 900 Index after a set of compliance involvement and ESG performance screens are applied. The index uses data from the International Institute of Green Finance (IIGF) to apply exclusionary screens. Companies that are assessed by IIGF to be non-compliant with the UN Global Compact Principles or involved in controversial weapons, tobacco, or thermal coal are not eligible for selection. The remaining securities are ranked in descending order of their IIGF ESG scores within each of the 11 ICB Industry groups. The STOXX China A 900 Large ESG index selects the top-ranking securities in each of the ICB Industries until the number of selected securities reaches 80% of the largest 300 securities by free float market capitalization from the STOXX China A 900.

## BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

## CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.
