

STOXX® WORLD AC INDEX

Index description

The STOXX World AC Index is a broad market cap weighted index designed to represent the performance of the large and mid cap companies from developed and emerging markets covering approximately 85% of investable market capitalization. It follows a robust and modular framework which enables investors to utilize this index for a variety of investment objectives whilst using a consistent approach.

Key facts

- »Broad yet liquid coverage of large and mid cap companies that supports clients' global investment decisions whilst avoiding home biases
- »A consistent and transparent methodology which fully embraces global standards of governance
- »Can serve as a basis for numerous derived strategies
- »Constructed using STOXX World Methodology
- »Its countries follow the STOXX World Country Classification Framework

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
