

STOXX® GLOBAL 150 INDEX

Index description

The STOXX Global 150 Index is a combination of the regional STOXX blue-chip indices for North America, Asia/Pacific and Europe, covering the supersector leaders of the respective regions in terms of free-float market cap.

Key facts

- » Diversified, as it incorporates a capping factor to ensure that no country/component can dominate the index
- » A fast-exit rule ensures the index accurately represents the performance of only the biggest and most liquid stocks

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers a wide range of customization, in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
