

# STOXX® NORTH AMERICA INDUSTRY NEUTRAL ESG 150 INDEX

## Index description

The STOXX Regional Industry Neutral ESG indices track the performance of the leading companies with regard to Environmental, Social and Governance criteria, based on ESG indicators based on a transparent rating model as provided by Sustainalytics.

STOXX will exclude the companies that Sustainalytics considers to be non-compliant with the Sustainalytics Global Standards Screening assessment as well as companies identified to be involved with controversial weapons.

## Key facts

- » Derived from STOXX broad, yet liquid indices to ensure tradability.
- » As the indices are derived from those well-known broad indices, investor can easily use it for benchmark purposes.
- » Exclude companies that Sustainalytics considers to be non-compliant with the Sustainalytics Global Standards Screening assessment as well as companies identified to be involved with controversial weapons.
- » Reliable, independent data source: Sustainalytics.

## Methodology

The STOXX Regional Industry Neutral ESG indices are selected from the STOXX Global 1800 universe. STOXX will exclude the companies that Sustainalytics considers to be non-compliant with the Sustainalytics Global Standards Screening assessment as well as companies identified to be involved with controversial weapons. The indices are created by selecting companies with an Environmental (E), Social (S) and Governance (G) score  $\geq 50$ . A capping algorithm is applied to calculate component weights so that the ICB Industry weight of the index is similar to the ICB Industry weight of the Benchmark.

Additionally, for the European version there are 2 further indices selecting the 200 and 250 companies with the highest Total Rating Score. For the North American version there are also 2 further indices, selecting the 150 and 200 companies with the highest Total Rating Score. The Total Rating Score is provided by Sustainalytics.

## DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

## BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

## CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

<sup>3</sup> Net dividend yield is calculated as net return index return minus price index return
