

# ISTOXX® MUTB GLOBAL QUALITY 150 INDEX

## Index description

The iSTOXX MUTB Global Quality indices aim to capture the performance of quality companies with high profitability, low leverage and sustainable cash flows. The component selection is based on a combined ranking of four fundamentals ratios (return on equity, debt-to-capital, cash flow generation ability and business stability). Stocks need to fulfill minimum liquidity criteria before being added to the index.

## Key facts

» Pure quality play with large investability.

» Ideal for market participants seeking exposure to the global market while only investing in quality stocks with sustainable profitability.

» Diversification through broad selection and capping of component weights to 2%.

## BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

## CUSTOMIZATION

The index can be used as a basis for the definition of STOXX Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.
