

ISTOXX® ITALY SMALL MID CAP INDEX

Index description

The iSTOXX Italy Small and Mid Cap Index is derived from STOXX Italy Total Market Index reduced by the constituents of the STOXX Italy 45 to provide a representation of mid and small capitalisation companies in Italy.

The index has a variable number of components and is reviewed quarterly.

The index is weighted based on the free-float market cap of the selected stocks and no single weight should exceed 5% at review.

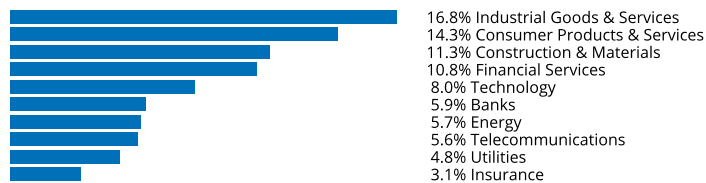

Key facts

- » Index allows targeted investment in small and mid size companies in Italy
- » Disjoint set of securities from two established indices STOXX Italy Total Market and STOXX Italy 45
- » Weighted based on free-float market cap
- » Each security is capped at 5% to achieve a diversification and avoid a dominance of a single stock
- » Transparent and rules-based methodology

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
