

# STOXX® NORTH AMERICA 600 ESG BROAD MARKET INDEX

## Index description

The STOXX ESG Broad Market Indices track the performance of a selection of STOXX Indices after set of compliance, involvement and ESG performance screens are applied. Companies that are non-compliant based on the Sustainalytics Global Standards Screening assessment, ESG Risk Ratings or are involved in Controversial Weapons are not eligible for selection. Additional exclusion filters are applied, screening companies for involvement in Tobacco, Thermal Coal, Unconventional Oil & Gas, Small Arms and Military Weapons. The remaining securities are ranked in descending order of their ESG scores within each of the 11 ICB Industry groups. The STOXX ESG Broad Market Indices select the top-ranking securities in each of the ICB Industries until the number of selected securities reaches 80% of the number of securities in the underlying index.

## Key facts

- »ESG screened versions of STOXX Benchmark Indices.
- »Indices select 80% of the securities from underlying indices.
- »Screening provided by award-winning ESG data provider Sustainalytics.
- »Transparent free-float market-cap weighting scheme.
- »Suitable as underlying for mandates, passive funds, ETFs, structured products and listed derivatives.

## Methodology

Companies that are non-compliant based on the Sustainalytics Global Standards Screening assessment, ESG Risk Ratings or are involved in Controversial Weapons are not eligible for selection. Additional exclusion filters are applied, screening companies for involvement in Tobacco, Thermal Coal, Unconventional Oil & Gas, Small Arms and Military Weapons. The remaining securities are ranked in descending order of their ESG scores within each of the 11 ICB Industry groups. The STOXX ESG Broad Market Indices select the top-ranking securities in each of the ICB Industries until the number of selected securities reaches 80% of the number of securities in the underlying index. The selection is applied across all industry groups, selecting the highest scorers and preserving the 80% selection ratio within each of the industry groups. The indices are reviewed quarterly, and components are weighted by free-float market capitalization, with a maximum capped weight of 10%. Deleted companies are not replaced.

## DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

## BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

## CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

<sup>3</sup> Net dividend yield is calculated as net return index return minus price index return
