

STOXX® EUROPE 600 OIL & GAS INDEX

Index description

The STOXX Sector indices are available for global markets as well as for Europe, the Eurozone and Eastern Europe. Using the market standard ICB Industry Classification Benchmark, companies are categorised according to their primary source of revenue. This categorisation guarantees a professional and accurate classification of companies in their respective business environments. There are 11 Industries, 20 Supersectors, 45 Sectors, 173 subsectors. Three supersectors indices namely Food and Beverage, Personal and Household Goods and Oil and Gas for EURO STOXX and STOXX Europe 600, STOXX Global 1800 Industry Consumer Goods and STOXX Global 1800 Food and Beverage would be maintained as legacy indices to continue to capture the economy reality of the indices. These indices would be maintained with the same history, name and identifiers.

Key facts

»Categorization according to their primary source of revenue guarantees an accurate classification of companies in their respective business environments

»Component capping ensures that no component can dominate the index

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers a wide range of customization, in terms of component selection, weighting schemes and personalized calculation methodologies.
