

# EURO STOXX® SUSTAINABILITY EX ALCOHOL GAMBLING TOBACCO ARMAMENTS & FIREARMS

## Index description

The EURO STOXX Sustainability Index ex AGTAFI offers a consistent, flexible and investable representation of the largest European sustainability leaders in the Eurozone, excluding companies which generate revenues from alcohol, gambling, tobacco, armaments, firearms and adult entertainment.

With a variable number of components, the EURO STOXX Sustainability Index ex AGTAFI covers stocks from 11 Eurozone countries: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Portugal and Spain.

The ratings are based on the proprietary research approach of Bank Sarasin. Their analysis is based on industry-specific and other criteria that cover the three most important dimensions of sustainability: environmental, social and governance.

## Key facts

» Very suitable for asset managers, as they provide them with comprehensive and accurate benchmarks for European sustainability portfolios

## Methodology

Components are selected from the EURO STOXX Index according to their sustainability rating (combination of company and sector rating) while excluding companies which generate revenues from alcohol, gambling, tobacco, armaments, firearms and adult entertainment. All companies with a positive sustainability rating are included in the index.

A rating is defined as positive if the combination of the company and the sector rating results in a shaded matrix field in the Sarasin Sustainability Matrix.

In deviation from Bank J. Safra Sarasin's standard approach, STOXX is including tobacco, adult entertainment and defense & armament in the universe for STOXX Europe Sustainability and EURO STOXX Sustainability. These criteria are considered for exclusion in the indices STOXX Europe/ EURO STOXX Sustainability ex AGTAF/ ex AGTAF respectively.

## BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

## CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

<sup>3</sup> Net dividend yield is calculated as net return index return minus price index return
