EURO ISTOXX® RESPONSIBILITY SCREENED SELECT 30 INDEX

Index description

The EURO iSTOXX Responsibility Screened Select 30 Index tracks the performance of 30 liquid stocks with low volatility and high dividend yield. Industry and country neutrality filters are applied in the selection process to ensure diversification. Companies that are in contravention of the Global Standards Screening or are involved in Controversial Weapons activities, as identified by Sustainalytics, are excluded. Additionally, companies involved in Military Contracting, Gambling, Adult Entertainment, Thermal Coal, Nuclear Power, Tobacco, and Genetically Modified Plants and Seeds are also excluded.

Key facts

»Selection of 30 liquid stocks with low volatility and high dividend yield

»Companies are Global Standards Screening-compliant and are not involved in Controversial Weapons.

»Further product involvement filters are applied.

»Companies with the lowest ESG scores in their respective peer groups are filtered out.

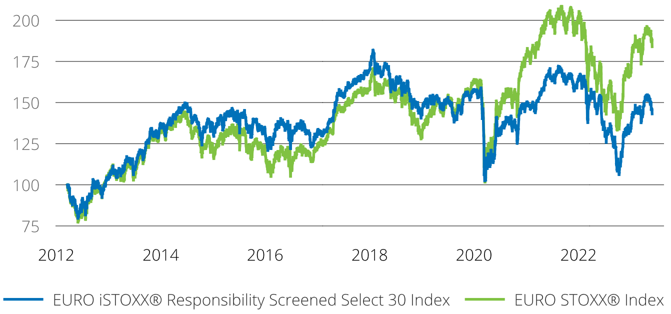
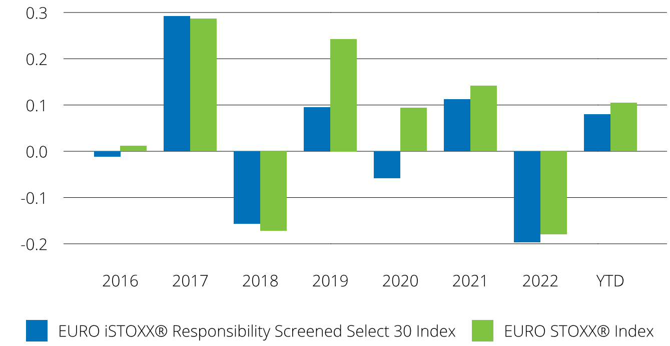
Performance and annual returns[4]





Methodology

The EURO iSTOXX Responsibility Screened Select 30 Index is based on the EURO STOXX® Index.

STOXX will exclude companies that Sustainalytics considers to be non-compliant with Global Standards Screening, and companies involved in Controversial Weapons. Furthermore, companies involved in Military Contracting, Gambling, Adult Entertainment, Thermal Coal, Nuclear Power, Tobacco, and Genetically Modified Plants and Seeds are also excluded.

From the remaining companies, the bottom 25% in terms of ESG scores in their respective peer group are excluded from the selection process. Consequently, the remaining companies are ranked in ascending order based on their volatility. The top ranking 50%, i.e. those with the lowest volatility, then serve as a basis for the selection of the final 30 constituents with the highest dividend yields. Industry and country constraints apply.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

[3] Net dividend yield is calculated as net return index return minus price index return
[4] STOXX data from Mar. 19, 2012 to May 31, 2023
