

ISTOXX® DEVELOPED MARKETS B.R.AI.N. INDEX

Index description

Derived from the STOXX® Developed Markets Total Market Index, the iSTOXX Developed Markets B.R.AI.N. Index is comprised of companies that are exposed to four megatrends that are expected to change the world as we know it: biotechnology (B), robotics (R), artificial intelligence (AI) and nanotechnology (N).

Revere (RBICS) data allow a detailed breakdown of the revenue sources of the eligible companies, helping this index to select companies with substantial exposure to the B.R.AI.N. themes.

Key facts

» Index allows targeted investment in biotechnology, robotics, artificial intelligence and nanotechnology, four significant megatrends combined.

» Detailed Revere data helps select companies with a revenue exposure above 50% to B.R.AI.N.-related sectors.

» Size and liquidity filters ensure replicability.

Methodology

The parent index is the STOXX Developed Markets Total Market Index. In a first step, only stocks with a 3-month median daily traded value (MDTV) greater than EUR 1,000,000 are included. In a second step, only companies with revenue exposure above 50% to sectors associated with either one of the four B.R.A.I.N. themes are included. Subsequently, these stocks are ranked according to their revenue exposure within their corresponding thematic cluster. The 20 companies with the highest exposure within each theme are included.

The index is weighted proportionally to the free-float market cap of the selected stocks multiplied by their aggregate revenue exposure to all four B.R.A.I.N. themes. Weights are capped according to the following constraints: the sum of all weights above 4.5% should not exceed 35%, and no single weight should exceed 8%.

The index composition is reviewed annually. Index weighting cap factors are recalculated quarterly.

The detailed methodology including the calculation formula and the list of sectors can be found in our rulebooks: www.stoxx.com/rulebooks

Quick facts

Weighting	Adjusted Market Cap weights
Cap factor	Single weights cannot exceed 8%. Sum of weights above 4.5%
No. of components	Variable
Review frequency	Compositions reviewed annually in June. Weight factors are
Calculation/distribution	dayend
Calculation hours	22:00:00 22:00:00
Base value/base date	100 as of Jun. 18, 2012
History	Available Daily since Mar. 18, 2013
Inception date	Jul. 26, 2018

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies

³ gr. div. yield is calculated as gr. return index return minus price index return
