ISTOXX INDICES EURO ISTOXX® ESG WEIGHTED 50 INDEX

Index description

The EURO iSTOXX® ESG Weighted 50 Index tracks the performance of the 50 largest securities from the EURO STOXX® Index that are not involved in fossil fuels. Industry neutrality filters are applied in the selection process to ensure diversification.

STOXX will exclude companies that are not compliant based on the Sustainalytics Global Standards Screening assessment, have Severe Controversy Rating (Category 5) or are involved in Controversial Weapons. Moreover, companies involved in Conventional Oil & Gas, Unconventional Oil & Gas (Arctic Oil and Gas Exploration, Oil Sands and Shale Energy) or Thermal Coal are also not eligible for selection.

Key facts

»The index selects 50 large and liquid securities from the EURO STOXX Index

»Companies that are non-compliant with the Global Standards Screening (GSS) or have a Severe Controversy Rating are excluded

»Companies involved in Controversial Weapons activities are also not eligible

»Product involvement filters are applied for Fossil Fuels

»Securities' weights depend on their ESG scores

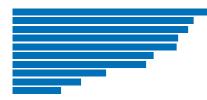

»Screening and ESG scores provided by Sustainalytics, the award winning ESG data provider

»Industry neutrality filters are applied in the selection process to ensure diversification

Performance and annual returns⁴

Methodology

The EURO iSTOXX ESG Weighted 50 Index selects 50 largest securities from the EURO STOXX Index that are not involved in fossil fuels.

STOXX will exclude companies that are not compliant based on the Sustainalytics Global Standards Screening assessment, have Severe Controversy Rating (Category 5) or are involved in Controversial Weapons. Companies that generate revenues from Conventional Oil & Gas, Unconventional Oil & Gas, Thermal Coal or with below 50 ESG scores are not eligible for selection.

Constituents of the EURO STOXX index that meet the aforementioned criteria are ranked in descending order of their free-float market capitalization. The index selects the largest 50 securities from this list, subject to ICB Industry constraints. These securities are then ranked in ascending order of their ESG scores and issued linearly increasing weights. Securities with higher ESG scores will have larger weights than those with lower ESG scores.

The detailed methodology including the calculation formula can be found in our rulebooks: www.stoxx.com/rulebooks

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return ⁴ STOXX data from Mar. 19, 2012 to May 31, 2023
