# ISTOXX INDICES EURO ISTOXX® 50 ESG FOCUS INDEX

## Index description

The EURO iSTOXX 50 ESG Focus Index tracks the composition of the EURO STOXX 50® Index and reweights its constituents according to a pre-defined scheme that allocates the highest weights to companies that rank highest in Environmental, Social and Governance areas, based on ESG indicators provided by Sustainalytics.

# Key facts

»Based on a parent index that is one of the most liquid indices covering the Eurozone, being used as underlying for a variety of financial products, such as options, futures and ETFs, as well as for benchmarking purposes

»Stronger representation of companies that are leading in Environmental, Social and Governance areas

»Components weighted according to independent company ratings provided by Sustainalytics

»Lowest weight assigned to companies involved in controversial weapons and companies which are non-compliant with UN Global Compact Principles

»Quarterly review frequency allows for closer tracking of fast entry/exit changes in the EURO STOXX 50 and swifter reactions to changes in ESG scores

### **Descriptive statistics**

Index	Market cap (EUR bn.)		Components (EUR bn.)			Component weight (%)		Turnover (%)	
	Full	Free-float	Mean	Median	Largest	Smallest	Largest	Smallest	Last 12 months

# Methodology

The index components exactly match the parent index members, i.e. the EURO iSTOXX 50 ESG Focus Index consists of the same stocks as the EURO STOXX 50 Index.

On a quarterly basis, a specific weight is attributed to each component according to a pre-defined weighting scheme, that considers the overall ESG score of each company. Companies with the highest ESG scores are attributed the highest weights, regardless of their free-float market cap. ESG scores are based on indicators provided by Sustainalytics.

The detailed methodology including the calculation formula can be found in our rulebook: www.stoxx.com/indices/rulebooks.html

#### BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

#### CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.
