

EURO ISTOXX® 50 STYLE WEIGHTED INDEX

Index description

The EURO iSTOXX 50 Style Weighted Index, using three style factors value, quality and size reweights the components of the prominent EURO STOXX 50 benchmark. The index includes all the components of the EURO STOXX 50 but with a weighting scheme that is based not only on free-float market cap but also on a score calculated using style factors.

The EURO iSTOXX 50 Style Weighted Decrement Index is derived from the EURO ISTOXX 50 Style Weighted Index and replicates the return of an investment into the net return version with a constant dividend markdown of 5.5% subtracted on an accrued basis.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
