

ISABELLE MILLAT

HEAD OF SUSTAINABLE INVESTMENTS SOLUTIONS AT SOCIÉTÉ GÉNÉRALE AND INVESTMENT BANKING

Isabelle Millat has more than 12 years of experience in the financial markets and derivatives products in particular. She joined the Group in 2006 and has held various roles within markets activities, notably as Chief Operating Officer for the Cross Asset Structured Products activity in New York. Since 2010, she has been a Financial Product Engineer in charge of developing cross asset investment strategies and index structuring for the Societe Generale Index franchise (SGI).

In February 2017, Isabelle was appointed as Head of Sustainable Investment Solutions, a newly created position within Global Markets activities. In this position, she is responsible for coordinating all sustainable and responsible investment initiatives across asset classes for markets activities in order to further develop the range of solutions offered to investors, leveraging on the bank's strong capabilities in financial engineering.

Isabelle started her career in 2001 at Capgemini Consulting. She is a graduate of the ESSEC business school in France.
