

SIMON HOWARD

CHIEF EXECUTIVE OFFICER AT UK SUSTAINABLE FINANCE ASSOCIATION

Simon Howard joined UKSIF as Chief Executive in May 2013. He is a former Group Chief Investment Officer, with over twenty years of investment management experience. He worked for Liverpool Victoria and Friends Provident after being Managing Director of 3i Asset Management. Prior to joining UKSIF, Simon was Head of Sustainable Financial Markets at the charity Forum for the Future.

Simon moved into sustainability after being asked to forecast long-term asset class returns. These are likely to be materially different going forward as issues such as climate change, resource depletion and stakeholder rights bite. It is clear that other sectors of financial services will also be affected, such as banking, insurance and personal financial services. Simon now seeks to use the insight and expertise of UKSIF members throughout UK financial services to drive change to the benefit of society and clients.
