| 1.1 Date of Publication  | Art. 1(1)(a) Commission Delegated Regulation (EU) 2018/1643 ("RTS")                    | The benchmark statement shall state: the date of publication of the statement and, where applicable, the date of its last update.  | <p><b>Date of Publication</b><br/>16 August 2019</p> <p><b>Date of Update</b><br/>15 September 2023</p>   |
| 1.2 Definition of the market or economic reality and circumstances in which such measurement may become unreliable | Art. 27(1)(3) of Regulation (EU) 2016/1011 ("BMR");<br>Art. 1(2) RTS;<br>Art. 1(3) RTS | <p>The benchmark statement shall clearly and unambiguously define the market or economic reality measured by the benchmark and the circumstances in which such measurement may become unreliable.</p> <p>In defining the market or economic reality, the benchmark statement shall include at least the following information:</p> <p>(a) a general description of the market or economic reality;</p> <p>(b) the geographical boundaries, if any, of the market or economic reality;</p> <p>(c) any other information that the administrator considers to be relevant or useful to help users or potential users of the benchmark to understand the relevant features of the market or economic reality, including at least the</p> | <p><b>Definition of market or Economic Reality</b></p> <p>The STOXX Futures Replication Family aims to measure the performance of a rolling investment into index futures. These index futures trade on global trading venues and include sub-classifications by sector, region, magnitude of dividend and combinations thereof. The futures are subject to regular rolling whereby a near-dated future is sold close to its expiry and the proceeds simultaneously reinvested into a longer-dated future. The benchmarks of this benchmark family do not pursue ESG objectives. The benchmarks of this benchmark family do not use any temperature scenario for the alignment with the target of reducing greenhouse gas emissions or attaining the objectives of the Paris Agreement.</p> |

| 1.3 Discretion    | Art. 27(1)(3)(b) BMR | <p>The benchmark statement shall lay down technical specifications that clearly and unambiguously identify the elements of the calculation of the benchmark in relation to which discretion may be exercised, the criteria applicable to the exercise of such discretion and the position of the persons that can exercise discretion, and how such discretion may be subsequently evaluated.</p> | <p>The rules and procedures to which the STOXX Futures Replication Index Family must adhere to are written with the express intention of removing the need for any discretion in so far as this is feasible.</p> <p>Where the existing methodology does not fully prescribe how an event should be dealt with or a complex or an unexpected operational event occurs (e.g. a complex corporate action or a market disruption) then discretion may need to be applied. STOXX has a clear set of procedures for dealing with events that require discretion and will apply these procedures to determine the appropriate treatment. In exercising discretion, STOXX ensures that the benchmark rationale is taken into account; market</p> |

Depending on the nature of the event, the issue will initially be dealt with by either, the Index Operations Committee (“IOC”) or the Index Management Committee (“IMC”). These committees both consist of senior, full-time members of STOXX’s staff and will evaluate and document all occurrences in which discretion may need to be used. The IOC or IMC, as appropriate, will then send their evaluation to the Index Governance Committee (“IGC”) for oversight. The IGC consists of the senior management of STOXX. The subsequent evaluation of the use of discretion will be evaluated by the Oversight Committee (“OC”) which includes external representatives and representatives from the compliance.</p> |
| <p>1.4 Notice regarding changes to, or the cessation of, the benchmark</p> | <p>Art. 27(1)(3)(c) BMR</p> | <p>The benchmark statement shall provide notice of the possibility that factors, including external factors beyond the control of the administrator, may necessitate changes to, or the cessation of, the benchmark.</p> | <p>It is possible that certain factors, including external circumstances beyond the control of STOXX, will lead to changes or even cessation of an index within the Index Family.</p>  |

| 1.5 Advice concerning material changes to financial contracts and financial instruments | Art. 27(1)(3)(d) BMR             | The benchmark statement shall advise users that changes to, or the cessation of, the benchmark may have an impact upon the financial contracts and financial instruments that reference the benchmark or the measurement of the performance of investment funds.  | Any financial contracts or instruments that reference any member of the STOXX Futures Replication Index Family or any investment funds that measure their performance by reference to a member of the family may be impacted by any changes to or cessation of a Family member. These financial contracts, financial products and investment funds must be able to withstand, or at least address the issue of, any changes to or cessation of a family member.  |
| 1.6 Rationale; review and approval procedures   | Art. 27(2)(b) BMR; Art. 1(5) RTS | <p>A benchmark statement shall contain at least, the rationale for adopting the benchmark methodology and procedures for the review and approval of the methodology.</p> <p>In specifying the procedures for review of the methodology, the benchmark statement shall at least outline the procedures for public consultation on any material changes to the methodology.</p> | <p><b>Rationale for adopting the benchmark methodology:</b> The STOXX Futures Replication Index Family methodology is designed so that it can appropriately measure the economic reality previously described in Statement 1.2.</p> <p><b>Procedures for review and approval of the methodology:</b> The new index approval process is managed by the Product Approval Committee (“PAC”), and the IGC who assess the ongoing suitability of any index or family of indices on at least an annual basis.</p> <p><b>Procedures for public consultations:</b> Any methodology changes that are deemed</p> |

Stakeholders will be informed of the consultation by notification and an announcement will be made on the STOXX website. Material changes can occur where there has been a structural change in the economic interest and to reflect this change the benchmark itself needs amending. Other material changes are where a benchmark changes its objective; changes its calculation methods; changes its compositions and weightings; changes the way it is operationally maintained e.g. changes the way it deals with certain corporate actions. The IGC will carefully take note of any opinions received during the one-month consultation period and take note of them in deciding whether to proceed with the proposed change.</p> |

STOXX considers all this data as readily available. During a trading day, STOXX gives priority to the most recent traded intraday price. STOXX has no general criteria for minimum data requirements but, by continuously monitoring Transaction Data received, STOXX will be able to assess whether this data is adequate. If STOXX assesses that the quantity of Transaction Data is inadequate it will deem this to be a Limitation and the IGC will then exercise Discretion in how to resolve the situation. STOXX does not use any models or methods of extrapolation in relation to Input Data. Periodic reviews of all benchmarks are undertaken to ensure their current constituents are best suited to measure their defined market or economic reality. Where the review process requires adjustments to a benchmark's constituents to be made, a rebalancing will be undertaken. STOXX will inform stakeholders of this rebalancing by means on an index update announcement. This announcement will state the constituent additions and deletions for each affected index and the date on which these changes will become effective.</p> |

Where a period of stress is only temporary, e.g. an exchange outage, then the input price used for a constituent will default to the last traded price. Where an affected constituent continues to trade on another venue, the benchmark may no longer be an accurate representation of the economic reality. Where a period of stress is more prolonged, then a Limitation has occurred and the IGC will then exercise Discretion in how to rectify it. In exercising Discretion, the IGC will ensure that any decisions taken will ensure the preservation of market integrity and the reliability of the benchmark by avoiding any undue market impact thus minimising any potential Limitations. All decisions taken by the IGC will be communicated to stakeholders on a timely basis by notification and by announcement on the STOXX website. If the conditions are expected to persist for a long period of time an index consultation, as outlined in Statement 1.6, may need to be enacted.</p> |

All users of the benchmark are notified immediately of a benchmark suspension and further notified prior to resumption. When a redetermination occurs, users are fully notified when the index redetermination has been applied retrospectively.   |
| <b>1.11 Identification of potential limitations</b> | Art. 27(2)(g) BMR; Art. 1(3) RTS | A benchmark statement shall contain at least the identification of potential limitations of the benchmark, including its operation in illiquid or fragmented markets and the possible concentration of inputs.<br>In defining the potential limitations of the benchmark [and the circumstances in which the measurement of the market or economic reality may become unreliable, the benchmark statement shall include at least: | Potential Limitations in the STOXX Futures Replication Index Family occur when a significant proportion of the constituent securities which make up one of the underlying indices of a family member has no official closing prices available. These Limitations can occur during periods of market stress as outlined in Statement 1.9. However, Limitations may occur due to technical reasons, for example the inability of a stock exchange to publish a close price due to a computer outage. |
|   |                                  | (a) a description of the circumstances in which the administrator would lack sufficient input data to determine the benchmark in accordance with the methodology;   | (a) STOXX uses the official exchange delivery settlement levels for calculation of the underlying futures for all family members. However, where Limitations exist it may be necessary to use the last traded price.   |

|                                  | Art. 27(2) BMR       | A benchmark statement shall contain at least: the definitions for all key terms relating to the benchmark  | See below for Glossary of Key Terms  |

| <b>Key Term</b>    | <b>Definition</b>  |
|--------------------|--|
| Gross Return Index | Shall mean an Index in which dividend payments are fully reinvested, calculated with a full dividend. Gross Return Indices are labelled accordingly in the Vendor Code Sheet.  |
| Input Data         | Shall mean the data in respect of the value of one or more Constituent Elements, or prices, including estimated prices, quotes, committed quotes or other values, used by STOXX to determine an Index.   |
| Insufficient Rule  | Shall mean the absence of a methodology rule, provision or procedure which leads to the failure of determining the respective Index Value or which leads to an Index Value that does not properly reflect the concept/nature of the Index, e.g. performance of the Index can no longer be replicated by a long portfolio tracking the Index; insufficient available Constituent Elements to fulfil the requirements of the Index Methodology; or market disruption which results in the performance of the Index being unable to be tracked. |
| Limitation         | Shall refer to circumstances where the Index Methodology contains an Insufficient Rule or Unclear Rule or if it fails to produce Index Values as intended. Examples: Data Insufficiency; Extreme Market Events.  |
| Net Return Index   | Shall mean an Index in which dividend payments are fully reinvested, calculated with a dividend minus STOXX Withholding Tax. Net Return Indices are labelled accordingly in the Vendor Code Sheet.   |
| Price Index        | Shall mean an Index which measures the price(s) of constituents and where dividend payments/coupon payments are not invested into the Index. All Price Indices are labelled accordingly in the Vendor Code Sheet.  |
| Trading Venue      | Shall have exchanges and other trading platforms.  |
| Unclear Rule       | Shall mean a situation in which a rule leaves multiple possible interpretation on how it shall be applied to a specific situation.   |
| Vendor Code Sheet  | Shall mean a sheet which contains information on certain Indices, <i>inter alia</i> the applicable Dissemination Calendars, which are available under <a href="https://www.stoxx.com/data-vendor-codes">https://www.stoxx.com/data-vendor-codes</a> .  |
