

STOXX® GLOBAL ESG LEADERS SELECT 50 RISK CONTROL 10% INDEX

Index description

The STOXX Global ESG Leaders Select 50 Risk Control 10% Index aims to create a portfolio consisting of a mix of the underlying index the STOXX Global ESG Leaders Select 50 EUR Index and a risk-free money market investment (STR), whose risk fluctuates around a predefined level. The allocation between the two components is determined by the volatility of the underlying index as compared to the risk level targeted by the Risk Control index: the more the underlying index's volatility exceeds the threshold, the higher the allocation to the cash component.

The underlying index, the STOXX Global ESG Leaders Select 50 EUR Index, captures the performance of stocks with low volatility and high dividends from the STOXX Global ESG Leaders Index.

The STOXX Global ESG Leaders Select 50 Risk Control 10% Index utilizes a measure of volatility in realized terms. The allocation to the underlying index, which may be adjusted on a daily basis, is capped to 150%.

Key facts

- »Based on very liquid instruments: money market and underlying index
- »Offers full participation in less risky, booming equity markets while at the same time protecting investors when markets become turbulent
- »Improved risk-return profiles for bull and bear markets
- »Reacts immediately to changes in the prevailing market environment due to daily observation of volatility trigger levels

STRATEGY INDICES

STOXX® GLOBAL ESG LEADERS SELECT 50 RISK CONTROL 10% INDEX

Methodology

The index portfolio consists of an underlying equity index the STOXX Global ESG Leaders Select 50 EUR Index and an overnight money market investment (STR). The rebalancing is done if the volatility changes by more than 5% since the last rebalancing to avoid high allocation turnover due to minimal deviations from the targeted risk level. In addition, a maximum exposure of 150% toward the risky asset is introduced to avoid extreme leveraged positions.

The detailed methodology, including calculation formula and full requirements, can be found in our rulebook:
<http://www.stoxx.com/indices/rulebooks.html>

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX indices, DAX indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.
