

EURO STOXX® SELECT DIVIDEND 30 INDEX

Index description

The STOXX Select Dividend Indices are designed to measure the performance of the highest dividend-paying stocks relative to their home markets. Stocks are screened by defined historical non-negative dividend-per-share growth rates and dividend to earnings-per-share (EPS) ratios.

The index family covers the North America, Europe, Asia/Pacific, Eurozone, EU Enlarged and Global regions. The Global index is a roll-up of the European, North America and Asia/Pacific indices. The indices are derived from their respective benchmark index, such as the STOXX North America 600, STOXX Asia/Pacific 600, STOXX Europe 600, EURO STOXX and STOXX EU Enlarged TMI.

Key facts

»Components are weighted by their indicated annual net dividend yield, i.e. the largest dividend-yielding companies have the highest weight in the index

»Fixed component numbers and cap factors guarantee index diversification

»Liquidity screening ensures the index is suitable as an underlying for financial products

Descriptive statistics

Index	Market cap (EUR bn.)		Components (EUR bn.)				Component weight (%)		Turnover (%)
	Full	Free-float	Mean	Median	Largest	Smallest	Largest	Smallest	Last 12 months

Methodology

The index universe is the relevant benchmark index. Only dividend-paying companies are eligible and those stocks must have a non-negative historical five-year dividend-per-share (DPS) growth rate and a defined dividend to EPS ratio. For the selection, components are sorted by an outperformance factor to their home market and ranked accordingly. A minimum liquidity level and a buffer rule are applied. Detailed index methodology, including information on the outperformance factor and the dividend to EPS ratio can be found in our rulebook : <http://www.stoxx.com/indices/rulebooks.html>

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
