

# STOXX® GLOBAL ESG IMPACT INDEX

## Index description

The STOXX Global ESG Select KPIs Indices offer a broad market exposure that tracks the performance of companies with superior environmental, social, and governance (ESG) KPIs.

Companies are selected and weighted by five essential KPIs. In addition coal miners, violators of Global Standards Screening, and companies involved with controversial weapons are excluded. KPI standardization by ICB industry and country-capping reduce unwanted systematic active exposures.

## Key facts

»Component selection and weighting based on the following KPIs: CDP emission/energy reduction target, percentage of women on the board, percentage of independent directors, strict policies against child labor, and against golden parachute agreement

»Companies that are involved in coal mining and/or controversial weapons, as well as those identified as non-compliant based on Sustainalytics Global Standards Screening assessment are excluded

»Tilt and capping methodology fixes the levels of active industry, country, and component exposures which in turn ensures low-tracking error compared to the respective benchmarks

»US and Global versions are available

## Descriptive statistics

Index	Market cap (USD bn.)		Components (USD bn.)				Component weight (%)		Turnover (%)
	Full	Free-float	Mean	Median	Largest	Smallest	Largest	Smallest	Last 12 months
STOXX Global ESG Impact Index	35,220.9	31,597.5	35.6	9.8	1616.5	0.6	5.1	0.0	51.0
STOXX Global 1800 Index	54,186.0	49,303.3	27.4	9.5	2,331.0	0.7	4.7	0.0	3.3

## Supersector weighting (top 10)

## SUSTAINABILITY INDICES

## STOXX® GLOBAL ESG IMPACT INDEX

## Fundamentals (for last 12 months)

Index	Price/earnings incl. negative		Price/earnings excl. negative		Price/ book	Dividend yield (%) <sup>3</sup>	Price/ sales	Price/ cash flow
	Trailing	Projected	Trailing	Projected	Trailing	Trailing	Trailing	Trailing
STOXX Global ESG Impact Index	16.4	15.0	15.3	14.2	0.1	1.7	1.8	17.7
STOXX Global 1800 Index	19.1	16.0	16.5	15.2	0.1	1.6	1.9	18.2

Performance and annual returns<sup>4</sup>

## Methodology

In a first step, all companies that do not comply based on Sustainalytics Global Standards Screening assessment, are involved in controversial weapons, or are coal miners (ICB Subsector 60101040) are excluded from the universe (US companies in the STOXX Global 1800 Index).

Secondly, for all remaining companies, 5 KPIs are determined and standardized by industry (CDP emission/energy reduction target, percentage of women on the board, percentage of independent directors, policy against child labor, golden parachute agreement). The standardized KPIs are aggregated using a linear combination with coefficients as in the table below.

Thirdly, the companies are then ranked by their aggregated ESG score and the top half will build the composition list. The companies on the composition list are grouped into quintiles by their respective aggregated ESG score and are assigned cap factors ranging from 1.5 (higher score) to 0.5 (lower score) in 0.25 increments.

## DISCLAIMER

STOXX, Deutsche Boerse Group and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, Deutsche Boerse Group and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, Deutsche Boerse Group or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, Deutsche Boerse Group or their licensors, research partners or data providers.

## BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

## CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

<sup>3</sup> gr. div. yield is calculated as gr. return index return minus price index return

<sup>4</sup> STOXX data from Sep. 17, 2010 to Oct. 31, 2022
