

EURO ISTOXX NEXT 30 NR DECREMENT 5%

Index description

The EURO iSTOXX® Next 30 NR Decrement 5% Index replicates the performance of the net return version of the EURO iSTOXX® Next 30 Index assuming a constant 5% performance deduction per annum. The performance deduction accrues constantly on a daily basis. Consequently, due to the percentage of performance being subtracted, the decrement index underperforms the standard net return index.

Key facts

- » Due to the performance deduction, the index underperforms the net return version of the EURO iSTOXX Next 30 Index, which includes a net dividend investment.
- » The decrement index may perform better than the price version of the EURO iSTOXX Next 30 Index, which does not consider dividend investments, if the overall net dividend yield of the base index is greater than the value being subtracted.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.
