

STOXX WORLD AC NEXGEN CONNECTIVITY

Index description

The STOXX World AC NexGen Connectivity Index is comprised of companies with significant exposure to technologies or products that contribute to future connectivity through direct revenue. These companies, or components of their business lines, are expected to benefit from long-term structural trends driven by technological and societal change, which, in the future, may have a substantial impact on their performance.

Revere (RBICS) Revenue datasets allow detailed breakdown of the revenue sources of the eligible companies, helping this index to select companies with substantial exposure to theme.

Key facts

»Index provides targeted exposure to companies that stand to benefit from the advancement of the global connectivity industry.

»Liquidity and size filters ensure replicability of the index.

»FactSet Revere data allow detailed and accurate revenue breakdown of eligible companies.

STOXX World AC All Cap	21.0	17.4	17.3	16.4	0.2	2.3	1.5	8.3

Performance and annual returns⁴

Methodology

The parent index of the STOXX World AC NexGen Connectivity Index is the STOXX World AC All Cap Index.

A set of country, size and liquidity screens are applied on the STOXX World AC NexGen Connectivity Index to capture liquid companies from eligible countries. The STOXX World AC NexGen Connectivity Index select companies that generate more than 50% of revenues within the aggregate of the FactSet RBICS sectors associated with the theme.

The index is weighted proportionally to the free-float market cap of selected stocks multiplied by the aggregate revenue exposure of each stock, with concentration capping. The index composition is reviewed annually in June.

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers customization in almost unlimited forms for example in terms of component selection, weighting schemes and personalized calculation methodologies.

³ gr. div. yield is calculated as gr. return index return minus price index return
