

STOXX EUROPE SUSTAINABILITY

Index description

The EURO STOXX Sustainability Index offers a consistent, flexible and investable representation of the largest sustainability leaders in the Eurozone, i.e. the Eurozone leaders in terms of long-term environmental, social and governance criteria.

With a variable number of components, the EURO STOXX Sustainability Index covers stocks from 11 Eurozone countries: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Portugal and Spain.

The ratings are based on the proprietary research approach of Bank Sarasin. Their analysis is based on industry-specific and other criteria that cover the three most important dimensions of sustainability: environmental, social and governance.

Key facts

»Very suitable for asset managers, as they provide them with comprehensive and accurate benchmarks for European sustainability portfolios.

Descriptive statistics

Index	Market cap (USD bn.)		Components (USD bn.)				Component weight (%)		Turnover (%)

Performance and annual returns⁴

Methodology

Components are selected from the EURO STOXX Index according to their sustainability rating (combination of company and sector rating). All companies with a positive sustainability rating are included in the index.

A rating is defined as positive if the combination of the company and the sector rating results in a shaded matrix field in the Sarasin Sustainability Matrix.

In deviation from Bank J. Safra Sarasin's standard approach, STOXX is including tobacco, adult entertainment and defense & armament in the universe for STOXX Europe Sustainability and EURO STOXX Sustainability. These criteria are considered for exclusion in the indices STOXX Europe/ EURO STOXX Sustainability ex AGTAF/ ex AGTAF respectively.

The detailed methodology including the calculation formula can be found in our rulebook: www.stoxx.com/indices/rulebooks.html

DISCLAIMER

STOXX, Deutsche Boerse Group (DBAG) and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, DBAG and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, DBAG or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, DBAG or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers a wide range of customization, in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
