<b>Item 7. Data and standards used</b>	
<p><b>(a) Data input.</b>  <i>(i) Describe whether the data are reported, modelled or sourced internally or externally.</i>  <i>(ii) Where the data are reported, modelled or sourced externally, please name the third party data provider.</i></p>	<p>Company analyses draw on a range of reliable and publicly available sources to create a transferable, equitable and auditable approach. Where possible, ECPI aims to use objective information that is easily measured and quantified and less subject to bias and opinion. In cases where an indicator is important to capture, but not easily quantifiable, ECPI process works to reduce bias, by identifying clear and unambiguous rules for assigning scores.</p> <p>Sources include:</p> <ul style="list-style-type: none"> <li>• Company annual reports</li> <li>• Company sustainability reports, environmental reports, CSR reports or similar</li> <li>• Company websites</li> <li>• Regulatory data (from the regulators in the country/countries where the company is incorporated and/or listed)</li> <li>• Information providers and search engines</li> <li>• Media and news services (including newsletters from local and international institutions and NGOs).</li> <li>• Screening of company’s participation in international institutions</li> <li>• Screening of company’s certifications</li> <li>• Screening of company’s awards</li> <li>• Thematic websites promoted by international non-profit organizations</li> <li>• Company Investor Relations departments, when necessary. In such cases, we try to obtain written answers in order to be able to store them in the company’s records</li> </ul>
<p><b>(b) Verification and quality of data.</b>  <i>Describe how data are verified and how the quality of those data is ensured.</i></p>	<p>The ESG data is sourced externally, from ECPI, the ESG research provider. ECPI delivers ESG scores and ratings information as well as involvement in controversial sectors of activity and an assessment regarding the UNGC principles. For details on ECPI ESG research, please refer to <a href="#">ECPI ESG Methodology Document</a>.</p> <p>The provider has been selected by the Administrator based on an assessment of its existing processes to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided.</p> <p>The verification and quality of data are checked both externally and internally by automated and manual quality assurance processes.</p> <p>The quality assurance process includes:</p> <ul style="list-style-type: none"> <li>• Systematic peer review for all issuers that are newly assessed</li> <li>• Systematic peer review for all significant changes during the annual update</li> <li>• Periodic spot checks for certain high-risk industries/issue areas by research leads</li> <li>• Periodic data comparison with third-party sources, including government and industry databases</li> </ul>
<p><b>(c) Reference standards</b>  <i>Describe the international standards used in the benchmark methodology.</i></p>	<p>The rating criteria have been developed in accordance with ICCR’s “Principles for Global Corporate Responsibility: Benchmarks for Measuring Business Performance” and is inspired by the principles developed by International Bodies dedicated to Responsible Investment such as UN Global Compact (<a href="http://www.unglobalcompact.org">www.unglobalcompact.org</a>), the Global Reporting Initiative (<a href="http://www.globalreporting.org">www.globalreporting.org</a>) and UN PRI (<a href="http://www.unpri.org">www.unpri.org</a>).</p>
