CONSIDERATION OF ESG FACTORS IN THE BENCHMARK METHODOLOGY			
Item 1. Name of the benchmark administrator.	STOXX Ltd.		
Item 2. Type of benchmark.	Equity		
Item 3. Name of the benchmark.	Benchmark – STOXX Global ESG Environmental Leaders Index Family - STOXX Environmental Social & Governance Family		
Item 4. Does the methodology take into account ESG factors?	Yes		
Item 5. ESG factors taken into a	account for benchmark family.		
(a)List of environmental factors considered	This benchmark family takes the following environmental factors into account by exclusion: Global Standards Screening; Controversy Ratings; Environmental Ratings, Overall ESG Ratings; Unconventional Oil & Gas; Conventional Oil & Gas; Thermal Coal; Genetically Modified Plants & Seeds; Pesticides; Palm Oil; Power Generation from Fossil Fuels; Subsectorial Classification.		
	This benchmark family takes the following environmental factors into account by selection: Environmental Ratings, Overall ESG Ratings.		
	This benchmark family takes the following environmental factors into account by weighting: Environmental Ratings, Overall ESG Ratings; EU Climate Transition Benchmark (EU CTB) requirements; EU Paris Aligned Benchmark (EU PAB) requirements.		
(b)List of social factors considered	This benchmark family takes the following social factors into account by exclusion: Global Standards Screening; Controversy Rating; Social Rating, Overall ESG Rating; Controversial Weapons; Weapons (Small Arms & Military Contracting); Nuclear Power; Tobacco; Adult Entertainment; Alcoholic Beverages; Fur & Speciality Leather; Gambling; Abortion; Contraceptives; Human Embryonic Stem Cells; Genetically Modified Plants & Seeds; Predatory Lending; Subsectorial Classification.		
	This benchmark family takes the following social factors into account by selection: Social Rating; Overall ESG Rating.		
	This benchmark family takes the following social factors into account by weighting: Social Rating; Overall ESG Rating.		
(c)List of governance factors considered.	This benchmark family takes the following governance factors into account by exclusion: Global Standards Screening; Governance Rating; Overall ESG Rating.		
	This benchmark family takes the following governance factors into account by selection: Governance Rating; Overall ESG Rating.		
	This benchmark family takes the following governance factors into account by weighting: Governance Rating; Overall ESG Rating.		
Item 6. ESG factors applied for	the stated benchmark.		

Governance Ratings measure how well issuers proactively manage the environmental, social and governance issues that are the most material to their business.		1	1

Controversy Rating: Sustainalytics assesses companies' involvement in incidents with negative ESG implications. A controversy is defined as an event or aggregation of even relating to an ESG topic and is measured by its severity on a scale of 1 to 5 (1- Low, 2- Moderate, 3- Significant, 4- High, 5- Severe).		negative ESG implications. ESG Risk Ratings: The ESG Risk Rating evaluates the degree of a company's unmana		ESG Risk Ratings: The ESG Risk Rating evaluates the degree of a company's unmanaged	

	 material ESG risk by assessing a company's exposure to, and management of, the ESG issues that are considered most material for that company from a financial perspective. Sustainalytics assess and categorizes companies into five risk categories (Negligible, Low, Medium, High, Severe). Product Involvement: Sustainalytics' Product Involvement Research identifies companies' involvement on a range of product involvement categories. More detailed information on the application of these categories is available within the relevant methodology guides. <u>https://www.stoxx.com/rulebooks</u>
Item 7. Data and standards use	d
(a) Data input.	The data are sourced externally from:
	(i) Sustainalytics, a wholly owned subsidiary of Morningstar Inc. https://www.sustainalytics.com/
(b) Verification and quality of data.	The verification and quality of data are checked both externally and internally by automated and manual quality assurance processes involving, inter alia, change control; change mapping; ID mapping; exception reporting; pre-publication reviews; continuous incident monitoring; quarterly rebalancing and centralised definitions.
(c) Reference standards	UNGC Violations: The United Nations Global Compact (UNGC) Principles, the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs), and their underlying conventions.
	Controversial Weapons: International treaties and conventions used to define Controversial Weapons include Non-proliferation Treaty (1968), Biological and Toxin Weapons Convention (1972), Chemical Weapons Convention (1997), Anti-Personnel Mine Ban Convention (1999), Convention on Cluster Munitions (2008), United Nations Convention on Certain Conventional Weapons (1980), and Convention on the Physical Protection of Nuclear Material (1980).
