Amendment - DAX Selection Lists and Review Files – New file name and format change effective March 5th, 2024

Dear Customer,

STOXX Ltd. provides the **final timeline** for the new file name and file format that will be applicable to **Selection Lists and Review Files of DAX Equity indices as of March 5th, 2024** on the New Index Data Distribution System. The **current file name and file format applicable to the DAX Equity indices** on the Current Index Data Distribution System MD&Si will **not be maintained after February 29th, 2024**.

This announcement is pursuant to the Technical Information related to the New Index Data Distribution System and new file formats for DAX Indices published September 19th, 2023. **The Amendment is related to the new file format of the Selection List for Licensees, with the addition of EBITDA criteria as an extra field to the new file format.**

For the convenience of our clients and as part of this communication, the “**DAX Equity Indices**” refers to the following indices: DAX, MDAX, SDAX, TecDAX, DAX 50 ESG, DAX ex Financials 30, DivDAX, DivMSDAX, DAXplus Family 30 Index, Scale 30, DAXglobal BRIC, DAXglobal China and DAXglobal Gold Miners. The full list of indices is indicated in the appendix of this Technical Information Announcement.

Content of the Technical Information Announcement

- Overview of the Technical Migration – Final Timeline for DAX clients.
- Overview of the Review file naming convention.
- Overview of the Selection Lists (ex-Ranking Lists) file format change.
- Overview of the Components Announcement and Underlying Data Announcements (ex-Business Forecast) file format change.
- Appendix Overview of the affected indices.

For more information on the DAX indices, please visit www.qontigo.com

Note regarding Index File Guides

The DAX File Guide contains file specifications that are currently valid.

As of March 2024, the DAX File Guide will be decommissioned and will be replaced with the Index File Guide.

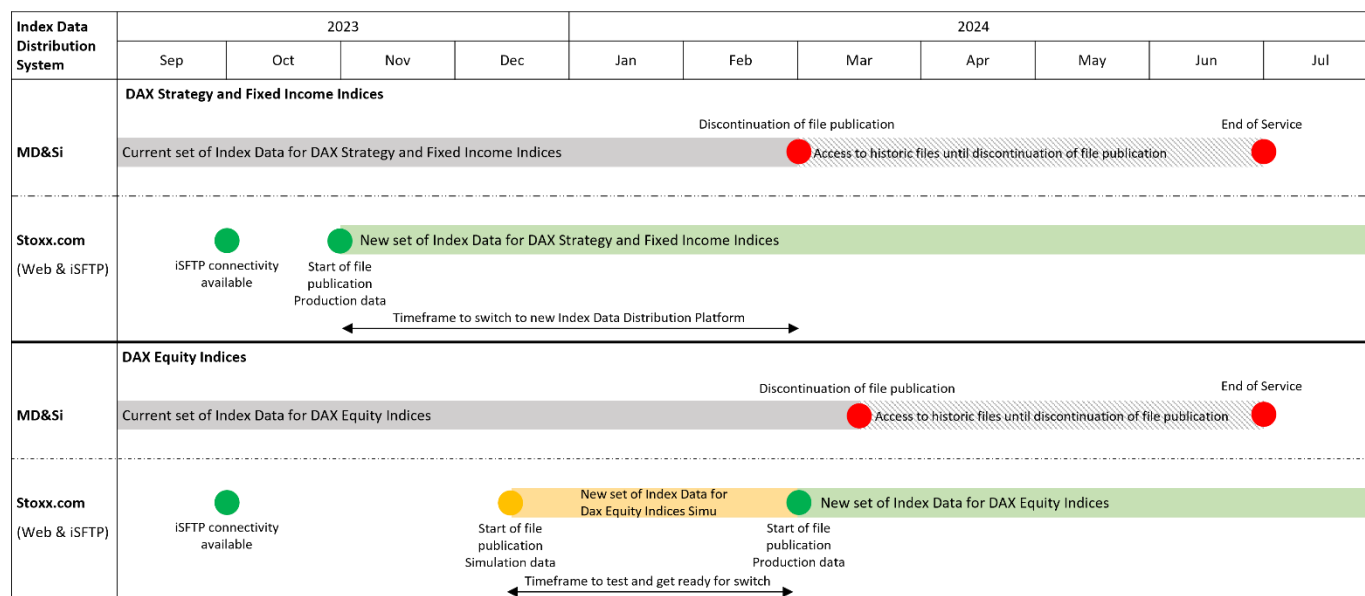

The Index File Guide is available since June 2nd, 2023 on www.stoxx.com > [Home](#) > [Resources](#) > [General](#) > [Technical Documentation](#)

The Index File Guide contains the specifications of index files that will be available publicly or to Index Licensees as of March 1st, 2024.

Overview of the Technical Migration – Final Timeline for DAX Equity clients

The technical migration from the Current Index Data Distribution System to the New Index Data Distribution System aims at a smooth transition for DAX Clients from October 2023 to March 2024 and ensure full readiness step by step.

The high-level timeline for the technical migration is scheduled as shown in the chart below:

Parallel Run phase

- **October 2nd, 2023: Access to the New Index Data Distribution System (Web & iSFTP):** DAX Clients credentials and new iSFTP folder structure are available, clients can check entitlement and connectivity to the New Index Data Distribution System.
- **December 18th, 2023:** Index Data of the **temporary DAX Simulation** are displayed for the DAX Selection indices (see Announcement related to the Index Methodology changes to be implemented in March 2024) on the New Index Data Distribution System (Web & iSFTP). Please refer to the communication related to the DAX Simulation Phase for further details and information.
- **February 29th, 2024: End of the DAX Simulation Phase**

Go Live phase

- **March 5th, 2024: Go live of “new set of Index Data for DAX Equity Indices”** on the New Index Data Distribution System
- **March 15th, 2024: Termination** of “old set of Index Data for the DAX Equity Indices” on the Current Index Data Distribution System

Overview of the Review file naming convention

The current **DAX Equity Indices** Ranking List and Business Forecast data set will be discontinued and will be replaced by files per **Main Index Symbol** with a naming convention using the Main Index Symbol as an index identifier and a 4-character identifier (P###) to account for the Third-Party data license entitlement.

- The Index Symbols are available in the DAX Vendor Code Sheet (see vendor_code_dax.csv column K - field Symbol) published in the web section [Index Data & Resources / Index Data / General / Data Vendor Codes](#).
- The Third-Party data license entitlement codes are available in section 1.2 of the Index Files Guide.

Underlying Data Announcement (UDA) (ex-Business Forecast)	INDEXNAME_BF.YYYYMMDD.xls	qr_P###_XXXXX_YYYYMMDD.csv

Overview of the Selection Lists (ex-Ranking Lists) file format change

The Public Selection List will have the same file format for all indices which require a Selection List and will contain relevant information according to the index methodology. As part of the file enhancement, security static data such as the *Internal_key*, the *RIC (Refinitiv ID)* and the *Exchange* it belongs to, will be displayed. Moreover, for some indices such as for DAX 50 ESG the file will contain a rank for each ranking criteria in place.

The **Public Selection Lists (ex-Ranking Lists Core)** are disseminated on a monthly basis on the 3rd trading day at 22:00 CET and are publicly available on www.stoxx.com > Home > Resources > Reports > Selection Lists
The Public Selection Lists are displayed for each Index Main Symbol in csv format and will have a format change as defined in section 4.4 of the Index Files Guide.

The changes will be effective for the March 2024 publication, scheduled on March 5th, 2024 at 22:00 CET.

The graphic below provides an overview of the **changes** (highlighted in green) **to the Public Selection Lists**.

The Selection List for Licensees will have the same file format for all indices which require a Selection List and will contain relevant information according to the index methodology. As a result, some columns will remain empty if they are not relevant for the index selection or restricted due to Third-Party Data Licensees.

As part of the file enhancement, security static data such as the *Internal_key*, the *RIC (Refinitiv ID)*, the *Exchange* it belongs to and the *Industry classification* will be displayed. Moreover, for specific indices such as for DAX 50 ESG, the file will contain a rank for each ranking criteria in place, while for the DAXplus Maximum Dividend further relevant information related to the Dividend or the Price.

Please note that information that are not relevant or not defined as a criterion in the Index Methodology, will not be displayed in the Selection List of any other Indices, i.e. information related to Basic criteria which are relevant for DAX will not be displayed in the Scale 30 Selection List.

The **Selection List (ex-Ranking Lists) for Licensees** is disseminated on a monthly basis on the 3rd trading day at 22:00 CET and will be available on <https://www.stoxx.com/selection-lists> and on iSFTP. The *Selection Lists* for Licensees are displayed for each Index Main Symbol in csv format and will have a format change as defined in section 4.4 of the Index Files Guide.

The changes will be effective for the March 2024 publication, scheduled on March 5th, 2024 at 22:00 CET, with the **exception of DAXplus Maximum Dividend** for which dedicated communication is available.

The graphic below provides an overview of the **changes** (highlighted in green) **to the Selection List for Licensees**. **The amendment to the previous communication dated September 19th, 2023, and related to the addition of an extra field containing the EBITDA criteria is highlighted in yellow.**

Overview of the Component Announcement and Underlying Data Announcement (ex-Business Forecast) file format change

For the convenience of DAX Clients, STOXX Ltd will introduce a new file called **“Component Announcement”** which will have the **same structure as the Underlying Data Announcement**, and it **will be displayed on the 3rd trading day at 22:00 CET of every Rebalancing or Review Month**. For example, the DAX Selection Indices Component Announcement will be displayed in March, June, September, December.

The information displayed in the Component Announcement such as current and new index membership and addition or deletion indicators will allow clients to anticipate the index composition to be implemented at the review effective date, in addition to the public announcement. However, information relevant to shares, free-float or weight will only be made available within the Underlying Data Announcement to reflect the latest changes prior to the Review effective date. For further information on the publication date related to Review and Rebalancing changes, please refer to the DAX Equity Index Methodology Guide.

The Component Announcement file will be displayed for each Index Main Symbol in csv format and will be available on <https://www.stoxx.com/review-reports> and on iSFTP. The file format description is available in section 4.5 of the Index Files Guide.

The changes will be effective for March 2024 Selection List (ex-ranking list) publication, scheduled on March 5th, 2024 at 22:00 CET, with the **exception of DAXplus Maximum Dividend** for which dedicated communication is available.

The graphic below provides an overview of the new Component Announcement file for Licensees.
