### Decision

STOXX decides to implement the following changes to methodology of STOXX Sustainability indices using Sarasin data:

#	Index Rule	New Methodology
(1)	Input data source for company-level ESG ratings, industry assessments, SDG revenue exposure, and Scope 1–3 emissions	ISS Sustainability
(2)	Index Review and Rebalance Frequency	Quarterly in March, June, September and December

STOXX will implement the changes resulting from this consultation with the ordinary index review in September 2026.
