End-of-Day index values of ECPI Equity, Decrement, Risk Control and Hedged Indices – Simulation Phase via Deutsche Boerse CEF from October 5th, 2026 to November 6th, 2026

Dear Customer,

STOXX Ltd., the operator of ISS STOXX index business and a global provider of innovative and tradable index concepts, announces that a **Simulation Phase of ECPI Equity, Decrement, Risk Control and Hedged End-of-Day index values dissemination via the Deutsche Boerse CEF Simulation Environment is scheduled from October 5th, 2026 to November 6th, 2026.**

This Technical Information is pursuant to the Client Information published on www.stoxx.com dated:

- June 12th, 2026: [Migration - ECPI Equity Indices to be calculated by STOXX effective December 21st, 2026](#)
- June 19th, 2026: [Real Time Feed – ECPI Equity, Decrement, Risk Control and Hedged indices to be disseminated via Deutsche Boerse CEF as of December 21st, 2026.](#)

This Technical Information is pursuant to Deutsche Boerse CEF Release Notes published on MD+S Interactive dated:

- August 11th, 2026: [CEF Release Notes 22.001](#)

General Information about index value Dissemination via Deutsche Boerse CEF

The ECPI index values of ECPI Equity, Hedged, and Risk Control Indices will be disseminated via Deutsche Boerse Consolidated Exchange Feed (CEF) as of December 21st, 2026. The Appendix 1 provides the list of affected ECPI Equity, Hedged, Risk Control, and Decrement Indices to be disseminated via Deutsche Boerse CEF.

The List of affected ECPI Equity, Hedged, Risk Control, and Decrement Indices will be added to the existing **Deutsche Boerse CEF Product 6049 - STOXX DAX ESG & Thematic Indices**, with the source code STX.

To ensure data continuity, clients and Vendors are strongly recommended to:

- review their current entitlements, and ensure they subscribed to the relevant **Deutsche Boerse CEF Product 6049 - STOXX DAX ESG & Thematic Indices**. Deutsche Boerse CEF products can be ordered within MD+S Interactive. Please contact mds.agreements@deutsche-boerse.com if you require entitlement support.
- assess the impact of these changes by participating in the Simulation Phase of ECPI Equity, Decrement, Risk Control and Hedged indices to be disseminated via Deutsche Boerse CEF scheduled from October 5th, 2026 to November 6th, 2026. Clients and Vendors should contact the Functional Operations Team by e-mail to datafeeds@deutsche-boerse.com for any questions regarding Deutsche Boerse CEF data feeds.

The overview of Deutsche Boerse CEF Product applicable to ISS STOXX Indices is available in appendix 2 of this Announcement.

End-of-Day index values dissemination of ECPI Equity, Hedged, and Risk Control Indices via Deutsche Boerse CEF

Generalities applicable to ECPI Equity, Hedged, and Risk Control index values Dissemination

At today's date, the ECPI Equity, Decrement, Risk Control and Hedged End-of-Day index values are published on the following business day (T+1). As of December 21st, 2026, the **End-of-Day index values will be disseminated at 22:30 CET with a close flag via Deutsche Boerse CEF on the same day as the index calculation (End of Day Index values only).**

The enclosed document to this Technical Information "**NEW_VCS_ECPI_Equity_20261221.csv**" contains detailed information per affected index of:

- the **Dissemination Time** (see "Dissemination from (local time)" in column T and "Dissemination to (local time)" in column U),
- the **Calculation Time** (see "Calculation" in column V),
- the **Dissemination Calendar** (see "Dissemination Calendar" in column W).

The Dissemination Calendar definition is available in the section 3.1 Dissemination Calendars of the [STOXX Calculation Guide](#) and available on www.stoxx.com in the section Index Resources > Methodology > Rulebooks. An extract is replicated hereafter for the convenience of Clients and Vendors:

- **STOXX Europe Calendar:** every weekday except January 1st, Good Friday, Easter Monday, December 25th and December 26th
- **STOXX Global Calendar:** every weekday except January 1st

Please note that the above mentioned information will be added and available in the [vendor codes file](#) at close of December 18th, 2026, as well as in the new ECPI Equity Index Methodology, ECPI Strategy Index Methodology and ECPI Decrement Index Methodology Guides to be published at the end of August 2026.

Dissemination of ECPI index values on Deutsche Boerse CEF Simulation environment

The **above index values dissemination characteristics will be replicated during the Simulation Phase** from October 5th, 2026 to November 6th, 2026. The Simulation Phase of End-of-Day index values dissemination via Deutsche Boerse CEF Simulation environment will include **all ECPI Equity, Decrement, Risk Control and Hedged Indices** as referenced in Appendix 1 of this Technical Information.

Please note that any ECPI Equity, Decrement, Risk Control and Hedged **End-of-Day index values** provided via Deutsche Boerse CEF Simulation Environment **during the Simulation Phase are TEST DATA** and therefore **NOT REPRESENTATIVE** of any live ECPI Equity, Decrement, Risk Control and Hedged Indices.

Go Live Phase of ECPI index values dissemination via Deutsche Boerse CEF

On December 21st, 2026 at 22:30 CET, the End-of-Day index value of all ECPI Equity, Decrement, Risk Control and Hedged Indices as referenced in Appendix 1 of this Technical Information **will be disseminated via Deutsche Boerse CEF** as part of **Deutsche Boerse CEF Product 6049 - STOXX DAX ESG & Thematic Indices**.
