Results of Market Consultation on proposed changes to the iSTOXX Global 5G & NexGen Telecommunication Components Index

Dear Sir and Madam,

STOXX Ltd., the operator of ISS STOXX index business and a global provider of innovative and tradable index concepts, announces the results of the market consultation on proposed changes to the iSTOXX Global 5G & NexGen Telecommunication Components Index.

Results

Overall, the respondents agreed with all proposed methodology changes and the September 2026 review implementation timeline.

Impacted Indices

iSTOXX Global 5G & NexGen Telecommunication Components

Decision

STOXX decides to implement the following changes to methodology of the iSTOXX Global 5G & NexGen Telecommunication Components Index.

#	Index Rule	New Methodology
(1)	Investment Universe	• STOXX France Total Market • STOXX Germany Total Market • STOXX Japan Total Market • STOXX Netherlands Total Market • STOXX South Korea Total Market • STOXX Taiwan Total Market • STOXX UK Total Market • STOXX USA Total Market
(2)	Headquarters or Country-of-Registration Filter	Exclude securities whose headquarters or country of registration is China or Russia.

(3)	Revenue threshold for current components and New RBICs addition	Companies that derive 30% or more of their revenues from the sectors associated to the NexGen Innovative Technology are selected. The threshold is lowered to 25 % for current components. New RBICS addition: 1. Satellite Systems Manufacturing 2. Other Satellite Equipment 3. Space and Missile Equipment Manufacturing 4. Electronic Interconnect Components. Revenues from this RBICS sector are considered only if they have disclosed sales related to communication or optical segment. 5. RF Analog and Mixed Signal Semiconductors 6. Networking Semiconductors 7. Radio Frequency/Microwave Passive Electronic Parts 8. Mapping / Geographic Information Systems Software
(4)	Profitability Requirements for Specific RBICs	Strictly positive Return on Equity (ROE) and Earnings per Share (EPS) in the last 12 months. Companies that derive more than 30% of their revenues from the RBICS L6 sectors below are not required to pass the Profitability criteria: 1.Satellite Systems Manufacturing 2.Other Satellite Equipment 3.Space and Missile Equipment Manufacturing 4.Mapping / Geographic Information Systems Software
(5)	Composition List, Weighting Scheme and Fast Exist	Composition list: All companies in the selection are sorted in descending order by their free-float market capitalization, and the 100 highest ranking companies are selected for inclusion in the index. The index is weighted according to free-float market capitalization, with a maximum weight capped of 6% at company level. Fast exit: Not applicable.

STOXX will implement the changes resulting from this consultation with the ordinary index review in September 2026.
