## Results of market consultation on proposed changes to the number of DivDAX index components

Dear Sir and Madam,

STOXX Ltd., the operator of ISS STOXX index business and a global provider of innovative and tradable index concepts, announces the results of the market consultation on proposed changes to the number of DivDAX index components.

### Results

All respondents agreed to the increase of index components for DivDAX from 15 to 20.

### Decision

STOXX decided to increase the number of index components for DivDAX from 15 to 20.

STOXX will implement the changes resulting from this consultation with the index review in September 2026.
